

Manual

Product Overview:

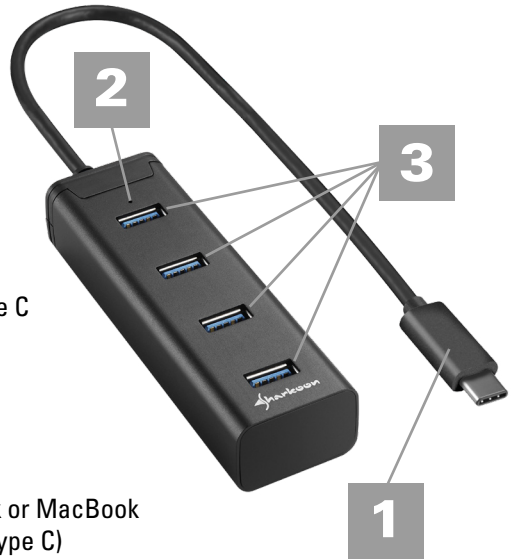

1. USB 3.0 cable with Type C plug
2. LED indicator
3. 4x USB 3.0 (Type A ports)

Package Contents:

- 4-Port USB 3.0 Aluminium Hub Type C
- Manual

System Requirements:

- Hardware requirements: Notebook or MacBook with available USB port (USB 3.0 Type C)
- Operating system: 7/8/10, Mac OS X, Linux

Connect to Notebook/MacBook:

Connect the USB 3.0 Type C plug of the USB hub to an available USB 3.0 or USB 3.1 Type C port on your notebook or MacBook. The driver for the USB hub will install automatically. The Ethernet function or the integrated USB hub network card will initialize automatically. Then, if necessary, perform a restart of your operating system.

Note:

This hub is suitable for charging and synchronization of mobile devices. Devices with high current demands (e.g. tablets) might not be able to charge.
